## Last month at the Middle School. . .

We spent the month of November talking about our friends and family as well as doing many Thanksgiving activities! We made bracelets to share with our friends and drew pictures of our families, we also painted some turkeys on rocks that have been hidden around our community. If you find one, please be sure to post a picture on our facebook page as well as the #khookrocks fb page! The last week of November was spent exploring the weather and the weather has certainly been all over the place this month! We hope you all had a wonderful Thanksgiving and we'll have more news next month!

## Last month at the Primary School. . .

This past month just flew by with the snow day, Thanksgiving, and days off from school. We weren't able to go outside a lot due to the weather, but we did play many fun games inside, like 4 corners, concentration, and the music ball! We also did crafts that include turkey plates, friendship wreaths, straw painting, and happy clouds. For the last week of November, we had a weather graph and daily weather chart. The children helped graph the weather for each day and made a prediction about the weather for the next day!

## What's happening. . .

The theme for the month is The Holidays!
